

Nurse Specialist (Parkinson's Disease) (VIC) (NSW)

Are you looking for a fantastic new challenge in your nursing career?

About the business

Join an established patient support program that prides itself on delivering excellent education, training and support to people living with Parkinson's disease.

A rewarding opportunity exists for an experienced and passionate registered nurse to join Partizan Worldwide and work as part of our program team.

About the role

As a proactive, compassionate and highly motivated Registered Nurse, this role will allow you to use your outstanding interpersonal skills to form relationships and use your excellent clinical skills to encourage better health.

This exciting and varied role will involve travelling in your State as well as Interstate, initiating and titrating new patients onto a particular medication within the hospital setting over a period of days as well as educating patients and explaining their treatment and how to manage it more effectively.

As part of the role you will also be required to conduct follow up support via telephone and patient home visits.

You will also have the opportunity to present education and training sessions to health care professionals.

Benefits and perks

The successful candidate will receive:

The opportunity to work within an organisation with strong values and a focus on positive culture and communication.

- A competitive salary package
- Flexible work environment
- Ongoing support and training
- The opportunity to make a real difference to the lives of people living with complex chronic disease

Skills and experience

The successful candidate will possess the following skills and experience:

- Current AHPRA Nurse registration and 5-6 years post registration with experience in primary and secondary care
- Applicants will ideally have clinical experience working in complex disease state fields e.g. neuromuscular and movement disorders, neurology, surgical, haematology, oncology and stoma nursing,
- Compassion and a desire to support people through disease diagnosis and treatment
- The ability to deliver high quality care by demonstrating best practice at all times
- Self-motivation with the ability to work independently as well as part of a team
- Excellent interpersonal and communication skills
- A strong commercial acumen and tenacious can do attitude
- Experienced in clinical training of nurses and the delivery of educational presentations
- Experience in delivering/facilitating secondary care services

- Enjoy working autonomously and have the flexibility to be able to commit to travel within the state and interstate as required
- Proven IT literacy
- You will be trained on the program, disease areas and medication administration that can assist patients in achieving better health outcomes.

Please note this is a full time role with hours to be agreed between Partizan and the successful applicant.

The role is primarily based in Victoria/NSW but there will on occasion be the requirement to travel interstate in order to titrate patients for up to 10 days at a time.

You will also have the opportunity to work from home with flexible hours.
